September 20, 2016

The Honorable Penny Pritzker Secretary United States Department of Commerce 1401 Constitution Avenue, NW Washington, D.C. 20230

Dear Secretary Pritzker:

On behalf of the undersigned organizations representing manufacturers, farmers and agribusinesses, wholesalers, retailers, importers, exporters, distributors, and transportation and logistics providers, we appreciate your actions related to the Hanjin Shipping Company bankruptcy and urge you to continue to engage the South Korean government to bring a swift and economically positive resolution to the situation.

U.S. businesses rely on predictability in their supply chains, particularly during the busiest shipping season of the year. The recent bankruptcy filing has caused widespread disruptions in freight shipments worldwide.

Since this is ongoing, the level of anxiety remains high as shippers wonder when Hanjin ships will be allowed to enter ports and if their goods will be seized by Hanjin's creditors once they are docked. There are also concerns about critical cargo that remains at overseas ports. For some, there is added confusion about the location of cargo, where cargo will be unloaded and how the cargo will be transported. The trade community is also facing steadily increasing freight charges as they look for new transportation options as well as concerns about fees assessed on cargo. The impact on small and medium sized companies could be particularly devastating if this situation is not resolved in a timely manner.

Thank you for your attention to this issue and your outreach to the business community throughout the process. We strongly encourage you to continue to work with the South Korean government to bring about a swift and economically beneficial resolution that will allow cargo to move through the global supply chain and give certainty to U.S. businesses.

Sincerely,
