

NITL

**THE NATIONAL
INDUSTRIAL
TRANSPORTATION
LEAGUE**

"The Shippers' Voice Since 1907"

Our Mission

To advance the views of shippers on freight transportation issues and enhance their professional development.

**By Joining
NITL, your
Company Will:**

- ▲ Gain a seat at the table on Capitol Hill, directly accessing U.S. Congress and federal agencies through NITL policy advisors and advocates
- ▲ Become part of a strong and influential group of freight transportation industry leaders
- ▲ Engage with an extensive network of peers with similar interests in the transportation sector
- ▲ Receive timely information and updates to help make informed business decisions
- ▲ Acquire knowledge that improves job performance, advances professional status, and delivers results to your business

Advocacy and Policy Development

- ▲ Gain high visibility with federal agencies and decision makers in Washington D.C.
- ▲ Benefit from collective representation on key issues affecting freight movements
- ▲ Receive timely and accurate information on policy and regulatory proposals

Education and Information

- ▲ Acquire direct access to top subject matter experts representing the industrial freight transportation sector
- ▲ Receive information and updates on important issues through a variety of channels, including our weekly newsletter, webinars, email and social media
- ▲ Access valuable member-only resources such as research, legal analyses, and industry publications

Professional Networking

- ▲ Connect with a diverse membership including transportation decision makers, suppliers, and intermediaries
- ▲ Engage with peers through participation in NITL committees and the annual NIT League Transportation Summit
- ▲ Raise your profile and grow your network through interaction with industry leaders

- ▲ Through the promotion of a safe, competitive and efficient freight transportation industry, the needs of shippers and the entire economy are best met.
- ▲ The League's cooperative efforts are executed with the intent to bring about workable solutions to difficult problems which will benefit all that use freight transportation.

**What We
Believe**
